

Solids Management Systems Models 700 & 800 Systems

Solid Management Systems. ESD Waste2Water, Inc offers a system to eliminate large in-ground sumps and drive-in pits saving on space and messy clean outs. The Solids Management System (SMS) is designed to handle solids above ground while recycling the wash water. The SMS is designed to process large amounts of sludge and place into an easy to remove Solids Hopper. The models 700 & 800 Systems will reduce operator maintenance for heavy wash applications such as:

- Mining
- Heavy Equipment Dealers
- Auto Recyclers
- Oil Field Services
- Construction Company
- Municipalities
- Trucking
- Military Fleet Operations
- Equipment Rental
- Solid Waste Haulers
- Food Processing
- Warehouses

SOLIDS MANAGEMENT SYSTEM SPECIFICATIONS:	FLOW RANGE	MEDIA	DIMENSIONS	CAPACITY	ELECTRICAL	FRESH WATER	NET WEIGHT
