

ULTRA HIGH PRESSURE  
**COMMAND**  
 PRODUCT SPECIFICATION

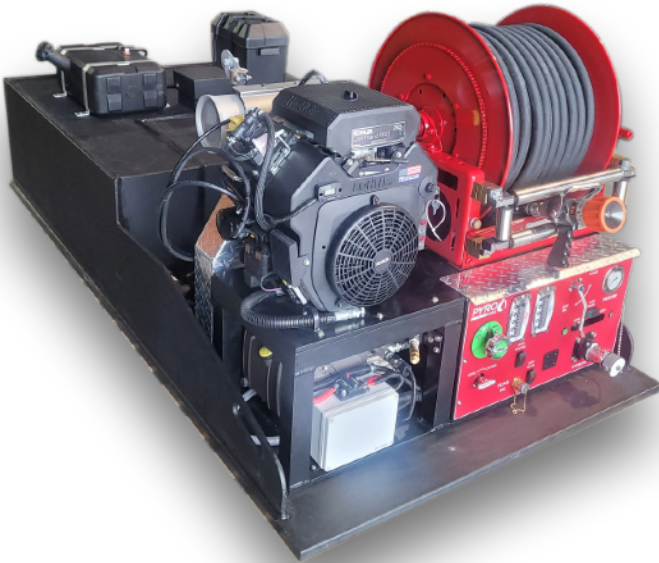

A workhorse of the UHP family. A self contained unit that can slip on most trucks (1/2 ton or higher). Command Skid Units are designed for rapid fire attack with easy installation on any Type 6, brush truck, rapid response, or other appropriately configured command vehicle. These products are ideal for fuel fires, forest and wild-land fires, and structure fires. These self-contained units incorporate a state-of-the-art UHP fire suppression system powered by a gasoline or diesel engine.

**PRODUCT SPECIFICATIONS**

Flow	20 GPM (76 LPM)
Pump Pressure	1450 PSI (100 bar)
Nozzle Pressure	1250 PSI (86 bar)
Weight (dry)	1300 lbs (590 kg)
Height	40 in. (102 cm)
Width	48 in. (122 cm)
Length	92 in. (234 cm)
Water Tank	125, 150 and 200 gallons
Integrated Foam Cell	12 gallons

- PRODUCT FEATURES**
- ✓ Water and Foam Skid Unit
  - ✓ Water and Foam Gauges
  - ✓ Auto Water Tender
  - ✓ Front Panel Foam Fill
  - ✓ Pressure Gauge
  - ✓ 1.5" Front Panel Water Inlet
  - ✓ 0% - 6% Foam Proportioner
  - ✓ 200' 3/4" UHP Hose
  - ✓ Elkhart Chief UHP Nozzle
  - ✓ Venturi Foam System
  - ✓ 1 Year Limited Warranty
  - ✓ Auto / Manual Modes
  - ✓ On Board Fuel Cell and Battery
  - ✓ Kohler 26 HP Fuel Injected Gas Engine

**125 Gallon Unit**  
92" L x 47.5" W x 40" H  
12 Gallon Foam Tank  
Auto-water Tender  
Foam Fill on panel  
Water and Foam Gauges

**150 Gallon Unit**  
92" L x 47.5" W x 40" H  
12 Gallon Foam Tank  
Auto-water Tender  
Foam Fill on panel  
Water and Foam Gauges

**200 Gallon Unit**  
92" L x 47.5" W x 40" H  
12 Gallon Foam Tank  
Auto-water Tender  
Foam Fill on panel  
Water and Foam Gauges
